

Hi -

We're the Conners family here in Remsen, and we recently started **STUDIO CONNERS** around a simple idea:

Bring us a problem, and let's see what we can make of it in a day.

Furnishings On Second is the kind of place people discover by looking around - furniture, gifts, decor, seasonal displays, and whatever is new. We thought it deserved a simple home on the web that could act like a front door to the store.

Rather than send you a sales pitch about what we could make, we made something.

Scan this to see the website we imagined for Furnishings On Second:

studioconners.com/furnishings-on-second

If you like the direction, we can give it a full **Studio Day** - using this concept as the starting point and seeing how far we can take it toward a real, useful website in one focused day.

A Studio Day is \$500.

There's no obligation. We just thought you might enjoy seeing what we imagined.
