

Hi -

We're the Conners family here in Remsen, and we recently started **STUDIO CONNERS** around a simple idea:

Bring us a problem, and let's see what we can make of it in a day.

Bill Ruba Cabinetry & Construction is built around craftsmanship people can actually see. We thought that work deserved a home on the web where the craftsmanship could do most of the talking and people could quickly understand who they're calling.

Rather than send you a sales pitch about what we could make, we made something.

Scan this to see the website we imagined for Bill Ruba Cabinetry & Construction:

studioconners.com/bill-ruba

If you like the direction, we can give it a full **Studio Day** - using this concept as the starting point and seeing how far we can take it toward a real, useful website in one focused day.

A Studio Day is \$500.

There's no obligation. We just thought you might enjoy seeing what we imagined.
